

Be with Allah

Shaykh
Muhamad Al-Yaqoubi

In the Name of the Sublime Essence
Is there the Secret of Uniqueness
So, invoke it in sincerity
And repeat saying: Allah; Allah; Allah

Visualise the Holy Great Name of Allah
Have its written form in your mind fixed
And disclaim all you know so that
The great opening comes to you from Allah

Invoke the Name by the day and the night
Untill you are absent from the invokation
Verily, all truths and secrets
Are not comprehended but by the Name Allah

The presence of the Unseen as well as the Seen
The Treasure of secrets and covenants
Power and authority over the world
Are all given to the poeple who invoke the Name Allah

The key to the Door of annihilation
Yet, in it is there the very lastingness
The source of all names
As the Essence is known by the Name Allah

This Name burns all desires and temptations
And removes all defects and ailments
So, make your breaths sighs
In of your chest in haling with the Name Allah

Sixty six doors have to be knowcked
Before the Great Opening is given
No one will go beyond them except those who repent
And are absent in the Presence of Allah

The ocean of all Essential Atributes
The Origin of the Eternal Actions
In it is there the secrets of With-iness
So be with Allah

Be out of your limits but in secret
And keep this away from all people
Because the salve is now free
from everything other than Allah

Why roads have become long for you
And they lead you to distruction
While the Lord of all kingdomes
Said, "Run only to Allah

Do not turn around in your journey
Carry the aspirations of kings
As the contact just at sunrise
Will bring you Light from Allah

Anyone who blames us for Him
Will be trialed tomorrow by the same
While our life has become prosperous
By the secret of Annihilation in Allah

By Him did we outdo the people of this time
And our name reached every country
The banner have come in our support
From everywhere with the armies of Allah

We allowed others to get access only
To leftover of what we were given
Then, as soon as we started swimming
We came before all of them by permission from Allah

We are the people of insights
When speak we signal and hint
So, take the glad tidings from us
As we are speaking by the Name of Allah

The secrets overwhelmed us
The lights have descended on us
The rivers are flowing towards us
with knowledge springing from the Name Allah

If you want to travel our way
After you have discovered our smell
Accompany us in this journey; may Allah guide you
So you reach your destination

I have not said this but through inspiration I received
While bowing my head
And covering my face with my overcoat
Being ashamed of myself in front of the servants of Allah

Our overflows have reached all syria
The permission of coming forth is given
I was told, O servant Rise
You are the guide to the people who want Allah

Afraid be not, as the Elect is
At the gate of arrival waiting
He is the best light of walk by
For anyone who wants to traverse the way to Allah

Two lineages do I have to Him indeed:
He gave me both: the bodily and the spiritual
I am in affection with him in both states secret and public
I have hopes he intercedes for me before Allah

Upon him be the prayers of the One and Unique
With countless Salutations
As long as the journeyer for ever
Would beseech him to intercede before Allah
